*The Galderma® CAREConnect™ Program ("Program") is brought to you by Galderma Laboratories, L.P. ("Galderma"). The Program is only available for commercially unrestricted or commercially restricted/cash paying patients. Patients who are enrolled in state or federally government-run or government-sponsored healthcare plan with a pharmacy benefit are not eligible to use the Galderma CAREConnect Patient Savings Card ("Card"). Any claim under the Program must be submitted by participating pharmacies to one of the Administrators of the Program.

Use of this Patient Savings Card is subject to applicable state and federal law, and is void where prohibited by law, rule or regulation. In the event a lower cost generic drug that the FDA had designated as a therapeutically equivalent product is available for one of the Galderma products covered by this Patient Savings Card, or if the active ingredient of a Galderma product is available at a lower cost without a prescription, this offer will become void in California with respect to the Galderma product.
